

The School Health Listserve

For the week of October 10, 2005

[LISTSERVE ARCHIVES](#)

The School Health Listserve provides news clippings and resources for school leaders and educators. On occasion, the resources we collect for the School Leaders Listserve (our listserv for school principals, vice-principals, educators, and other school leaders) include items of interest for readers of the School Health Listserve. This week, many health issues are addressed in our Leaders Listserve on Portables and Relocatables. We encourage you to download [this resource](#) at http://www.schoolfile.com/listserves/school_leaders/index.html.

You can also register to receive the School Leaders Listserve directly at www.principalsonline.com.

We hope you find this information useful.

Best regards,

Principals Online
